

Department of Biological Sciences  
Supervised Study in Biology Permission Form (BIOD95H)  
Fall 2024

Students wishing to enroll in the supervised study in Biology course, BIOD95H, must read and follow instructions carefully. In addition, please see the prerequisites for BIOD95H.

1) Read the General Information Sheet (page 2 of this document).

2) Meet with your potential faculty supervisor to discuss the proposed research you would do and the method of assessment of your performance. If your proposed supervisor is not a member of the UTSC faculty, you must also find a supervisor in that discipline at the UTSC. Approval for doing research with an off-campus supervisor and the permission form must be given by the Course Coordinator (Dr. Shoemaker) prior to enrollment.

3) Fill in the Directed Research Permission form
