

CHMD16H3: Environmental & Analytical Chemistry
Lecture: Mondays 12-4pm from January 10 – February 14, 2022
Laboratory: Mondays 12-4pm from Feb 28– April 4, 2022

CHMD16 lectures will be held online synchronously until January 31, 2022.
Further guidance will be provided regarding in person instruction when
information is available

Zoom Meeting for CHMD16 Lectures (no passcode; waiting room enabled):
Meeting URL <https://utoronto.zoom.us/j/89797592636>
Meeting ID: 897 9759 2636

COURSE DESCRIPTION

Students will learn about analytical techniques used in environmental chemistry, including: gas and liquid chromatography, mass spectrometry, atomic absorption, and ultraviolet
