

## PhD Departmental Defense Committee Member Approval Form (Departmental Defense Committee Meeting)

The Physical & Environmental Science PhD program requires that all PhD candidates present their thesis for evaluation to a Departmental Defense Committee Meeting before proceeding to the School of Graduate Studies (SGS) PhD Final Oral Examination. The Departmental Defense should be held at least eight weeks prior to the SGS PhD Final Oral Examination. The completed form should be submitted to the PhD Program Assistant as soon as possible so that the committee composition can be reviewed and approved by the Graduate Chair to the meeting.
