

EESA09H3 - Wind

Quizzes will occur near the end of each lecture 2-11. Each quiz will cover the materials from the same day lecture. If you miss a quiz, there is no make up and you will miss out a participation opportunity. It is very important that you attend each lecture to write the quiz at the end of the lecture. Out of class opportunities will also be available, to a maximum of 5 marks.

Required Text

There is no text book assigned to this course. All lectures with supplementary (explanatory) material will be posted on the course web site on the blackboard.

Reading research papers

In each lecture, a research paper will be introduced on the relevant topic. You are required to read the paper as soon as it is posted on the blackboard.

To study a research paper, follow the steps below.

1. Reading through a given paper once without taking notes, to get an overview of the paper. You should read critically (not passively), by asking yourself such questions as
±what research questions the authors are asking? What are the major steps (assumptions/methodologies) taken to answer the questions? How does this reading relate to other readings and most importantly, to the lecture material? Do not use a highlighter at this stage ± R Q O \ Z K H Q \ R X ¶ Y H U ÷] # Ñ ! ã ¢ ë H Q g yourself r 1 t use o a o c

If, for some extraordinary reason, you do miss a midterm, please notify me within 24 hours of the exam in person or by email. A non-vague note from a doctor will be required.

Midterm and Final exam format

Same format for both exams, only differing in quantity.

1. Section one: Who is who (or, fill in the blank)
2. Section two: True or false questions and Multiple choice questions
3. Section three: Short answer questions
4. Section four: Concept maps

How to study for the exams

You must study the lecture notes (will be posted after each lecture) in addition to the lecture slides, for the exams. The major topics are elaborated in the lecture notes. In order to understand a specific topic and to describe it in detail on the exam paper the notes are very helpful.

Emails

I welcome dialogue by email concerning the material in the course. However, I will delete
