Waterborne Hazards and Human Health
5. Chemical Hazards and Human Health
Video: "The Disappearing Male"
- 6.

May 28th

June 4th

LECTURE NOTES

The lecture slides will be posted in *.pdf format on the Intranet. You will require Adobe Reader to open the files (available free of charge at www.adobe.com).

ASSIGNMENTS

There are no tutorials in this course. TAs will hold office hours to help with assignments. See the Intranet to find out who is your TA. I would suggest you to attend office hours of your TA (*always the same TA*) regularly since she/he will mark your assignments. If you have conflict you can see another TA but you have to submit the assignment to your, designated, TA. Students are encouraged to actively consult with the TAs regarding any problems or questions about the preparation of the assignment.

You will have two assignments during the term, worth 30% of the final grade (15% each). **You will be able to access the problem sheet**

MID-TERM EXAMINATION

The 1-hour mid-term examination will be held during the mid-term period, exact time, date and rooms TBA. The exam will consist of multiple-choice and true-false questions and will be worth 30% of the final grade.

FINAL EXAMINATION

The 1-hour final examination will be held during the final examination period. The exam is worth 40% of the final grade for the course. It will be a combination of multiple choice, and true-false questions.
