## PHYC11H3 Syllabus Winter 2019

## **Intermediate Physics Laboratory II**

**Instructor:** Prof. Dan Weaver

Email: dan.weaver@utoronto.ca

description:

Students will be required to do three experiments. For each experiment, a formal laboratory report must be submitted by the deadlines listed below in the course schedule. Some experiments may be completed by two students working collaboratively. This requires instructor permission. Each student must independently produce a lab report.

Late laboratory report submissions will be subject to a penalty of 15% per day.

Reports must be submitted to the instructor in person at the beginning of a lecture and submitted by email as a PDF document. Due dates correspond to t

- When students sign in, the instructor will assess that they are properly prepared.
- During the laboratory session, the instructor may ask students about background, progress, and understanding of the experiment being conducted.
