Course: CHMB21H3S, Chemical Structure and Spectroscopy

Instructor: Simon J. Fraser

e-mail UTSC: fraser@utsc.utoronto.ca; St. George: sfraser@chem.utoronto.ca

phone UTSC: (416) 287-7214; St. George: (416) 987-4650

Offices:

UTSC: Room SW 506A

St. George: Room 420C

Office Hours at UTSC: Mondays 12:00{14:30, Wednesday 12:00{14:30

Lectures:

- Spectroscopy of the above atomic and molecular systems.

You should look at the UTSC 2010/2011 Calendar for the course information on page 69. You will almost certainly have a copy of the E&R textbook from taking CHMB20H3F. I do not mind if your E&R is the first or second edition. However, as I am sure it is on reserve in the UTSC library as E&R Second Edition you should ensure that any assigned or suggested reading I give from E&R Second Edition corresponds to similar material in the E&R First Edition. I will give some indication of this corresponding material.
